

BONALDO

Art, Art Wood

Designer: Gino Carollo

The base of the Art table is its most distinguishing feature: it is made up of a metal trapezium that runs diagonally under the table top, allowing minimum obstruction and optimising the space. Overall, the load-bearing structure designed in this way stands out for its high level of dynamism, solidity and sculptural impact. The top is firmly supported but the final effect is one of great

lightness. The base of the Art table is in painted metal of various colours; the table top in the fixed (rectangular, round or rectangular with rounded corners) or leaf version is available in different materials: this versatility makes it equally suitable for dining room or study. Art table takes on new life in its version with wooden base ("Art Wood").
